In April 2017, Asago City - along with other municipalities in Hyogo recognized Japanese heritage as part of the story “Beyond the Bantan Line: The Silver Road and the Road of Ores, 73 km of ruts following the races of a resource-rich Japan”.

As Asago celebrates its 6 years as part of these emblematic roads, we take you on a journey to (re)discover how this region was once the cornerstone of Japan’s mining industry. Enjoy cycling through beautiful autumn colours and sceneries while learning more about Japanese history. Witness the local town’s autumn festival atmosphere and see the portable shrines carried around called Mikoshi.
